

Seminole Combine Cycle Facility

CONTRACTOR SAFETY ORIENTATION

INSTRUCTIONS

Before any work begins, each contractor must complete and sign the Contractor Safety Orientation form and return it to the EHS Compliance Administrator.

The orientation must be taken **annually**.

While working in the plant areas, contractors are required to wear hardhats, safety glasses with side-shields, steel-toed boots, and sleeved shirts. You may be required to wear additional PPE depending on your job scope.

Please follow the instructions below to view the Safety Orientation **before** coming on site.

When you arrive at the site, report to the Administration Building and complete the Contractor Safety Orientation Acknowledgment Form or email to: jlocke@seminole-electric.com .

Instructions: Login to www.seminole-electric.com ,

- On the top right-hand side of the page click on "Login"
- Username: **Contractors**
- Password: **SeminoleContractorTraining**
- Click on "SCCF", on the left side.
- Watch the SCCF Contractor Orientation video
- If your job scope requires LOTO training, watch the LOTO -Protected Person video
- If you will be a Work Leader in the LOTO program, watch the SCCF Work Leader Training video; There will be a test administered on-site prior to assuming this role

Call if there are any questions/concerns.
